A FEW YEARS AGO, DURING CONSTRUCTION OF
IKE, WE WERE EATING BREAKFAST OUTSIDE, WE
KNOW SOUND WALLS WERE BEING PUT UP, WE
NOTICED HOW QUIET IT WAS OUTSIDE.
I AM LOOKING FORWARD TO THE SOUND BARRIER EXTENDING.
I HOPE THE EXIT FROM THE IKE, OFF, PAST GARDNER ROAD
WILL BE REMOVED DURING RE CONSTRUCTION.

Please respond by November 23, 2015.

Comments:

I am 100% in favor of the wall. Drivers is getting use to exiting at Gardner Rd making the U turn. I have witness two accidents since the time I have moved to the area (1998). I hope with this new design, it would stop the semi trucks. Thank you

Comments:

A wall would obstruct the beauty of nature viewed daily such as the trees and foliage along with the various vehicles going to and fro. Also an accident would not be viewed to call for assistance. I am really not in favor of a concrete wall however I would consider a transparent wall, but if it's concrete I am not in favor of it. Thank you

Comments:

We would benefit from this
Noise Wall. It would allow me
to open my windows, have
a conversation outside. Those
are just 2 small reasons we would
appreciate the noise reduction wall.
We love this plan. Thank you!!

with that wall being built. It
will increase more crime along the
way (Harrison Ave). Crime will not
be as visible. It will include the
area. So I'm not in agreement
for that purpose.

Weeds and vegetation, is not a sound barrier, it's nature's home for wild animals skunks possums coons etc which have wandered into the residential areas. Aesthetically it is horrible to have wild vegetation blocking one's view catching highway debris paper, cans, bottles etc.

Comments:

Who pays for this Wall? Taxes are High. Energy
Why do we need a Wall when there are other
things to address. All these Barriers Everywhere
What would be the real purpose for the Wall
We need our Streets fixed, All of these Big holes
What will be the Benefit of All this? Less Noise?
I'm Not sure of All that's going Now.

Comments:

When my son was born in 2007, it was very difficult to get him to sleep. Every 10-15 minutes, there would be a large truck that would wake him up. We actually are in the process of moving out next year, and the noise level from the highway was a major reason for this. Even now, the noise from the highway will sometimes wake us all up in the middle of the night from motorcyclists doing circles at 2 AM.

Comments:

- ① it is not needed, Garfield st. is noisier
 - ② how can the fire dept. help, as it has before, with the possibility of fire on X-way from above on Harrison or Garfield?
 - ③ anyone who moved here knew about the X-way, so if after 1960
 - ④ they need a wall, put it in front of their houses only. It would cost too much & be a waste of money.
- Please respond by November 23, 2015.

Please return this form ONLY in the enclosed envelope, to:

Comments:

Those of us living along the corridor and literally have the Eisenhower in our back yards, feel sound walls will significantly improve our quality of life and increase our property values. People are historically against change, but a sound/visual barrier wall will benefit the whole village by protecting us from the excessive noise and pollution from the expressway. Significantly widening the Oak Park Avenue bridge could become a beautiful gate-

Comments:

I don't prefer the "cheapest" option for very limited benefit noise suppression. From what I've seen the noise levels will only come into specification levels very close to the wall; others a few meters away will still not benefit from a noise or aesthetic perspective. There are better overall options, such as a "cap", that will have long lasting, social, economic benefit to our community.

The noise from the expressway has never been an issue. In fact, we have never heard anyone in our neighborhood ever complain or speak about it. We are wondering why I.Dot is so worried about it now! It must have to do with government funding of projects - in order to keep it alive, some money needs to be spent

Comments:
This is a terrible idea that only further divides the city. My hope is that because this is required by the Fed, that you make the walls as ridiculous as possible to prevent anyone in their right minds from voting "yes". Please consider alternatives if this moves forward such as decking over the Ike to make the barriers an asset instead of a liability. Please also consider that tenants are inherently transient and should have little bearing on if the project moves forward.

I like to see over the bridge. I do NOT want to see a wall. My daughter takes the EL to work. I like it that I can see her get on or off the EL. I feel with the wall our usage will feel spit, and I don't like that. I feel that graffiti will be an issue if the wall are put up. I have live in my house insince 1963 and I like the way it is. I feel that the wall will make Oak Park look like a prison. SO I VOTE

I think it would have been helpful if ~~it~~ the expected noise levels had been more clearly / obviously presented. It took ^{reviewing} ~~finding~~ the two-volume Noise Analysis study to find out if the future scenarios would be showing an increase in noise. The study shows just about every receptor would have no perceptible increase in noise even before the wall, and I

I would support a "green-wall" that has
evergreen plants. I do not, however, support
the noise wall as currently designed.
My daylight would be dramatically reduced. A
green wall would still have porosity, but also
reduce noise. A green wall would also provide fresh
air.

It was. Five years ago. I loved the view
of the highway, trains, people and is the
closest I can be to the city life - and
because of that I move to OAK PARK.
if you block the view you block my lifestyle.

Please respond by November 23, 2015.

Comments:

I do not support the construction of the noise wall because I don't think it is necessary. I have been tenant on this property for 4 years and ~~no~~ no one complaint about the noise. In fact, if the construction begin will bring us a lot of inconvenient. Street will block, hard to find parking, noise and dust from construction etc. etc. Furthermore, it is sometime for people to enjoy of view of trains and cars passing by.

Please respond by November 23, 2015.

Please make sure to look at the glaring issue of improper fence blockage and access to 290 at Harrison + Scoville

In addition, noise is very loud at Harrison + Scoville. I need earplugs each night. Also, while it's nice to see the traffic, it's an eyesore.

Comments:

I have lived here 41 years - I guess I'm used to the noise and adapt I would be very upset about having a barrier where I would look out and see a wall. Now I can see green and beautiful buildings across the Xway. Several years ago a few trees were planted on the grassy brook. It was good but not enough. Many trees would be the clean beautiful way to go - start planting now - in ten years they'll be beautiful & will clean up air of CO2 and produce O2 - We have many hundred feet of grassy area now. Please respond by November 23, 2015. Why cause an unnecessary problem with an unsightly barrier, stop noise and dividing Oak Park? In 10 years we may have many quiet down electric cars making all of this unnecessary. Plant trees now this area doesn't see a wall.

It is already very noisy. Blue line train is extremely noisy, in comparison with green line, when will the blue line be renovated?

Motorcycles during summer run at very high speed, very noisy! I live on 3rd floor, is 15' height for the noise wall enough to reduce noise level at that elevation?

I am very concerned about health issues caused by all this noise!

Owner of this property: selfes?
yes!

Tenant on this property: _____

Comments:

1. We have a wall south at the [redacted]
[redacted] Now its proposed to wall the
other end? This is not Berlin, its O.P.
2. The openess (albeit noisy at times)
would be lost. No more sunsets.
3. Our village is already divided by a ditch.
Now a wall on top
of that?

Could we have a natural wall instead?
Maybe Arborvite trees? It'll be claustrophobic
over here. Our houses are really close.
Plus, we often look over the expressway.
It's a strange yet enjoyable neighborhood
thing, we often do as neighbors. I think a
wall will look more like

Have lived here for 48 yrs. [redacted] is probably the closest to 290 traffic noise and more importantly air quality is bad [redacted]

I STRONGLY SUGGEST PLANTING TREES/SHRUBS INSTEAD OF UNSIGHTLY WALLS. There is a big improvement in reduction of noise and air

quality in summer due to bushes and grasses which I may planted over the years. Trees/bushes should be planted along Gantfield from Lombard - Ridgeland Av. [redacted]

Comments:
Our police and fire dept. use Garfield St.
To check on accidents, etc. on I-290. Maybe
more evergreens would block the noise.
Evergreens would be great, beautiful and work
all year because they don't lose their needles.
Once the trees lose their leaves - the noise is
louder. Also can CTA reduce the noise levels on
their trains? That's where the
real noise comes from.

Comments:

A WALL WILL ONLY SERVE TO FURTHER SEGREGATE S.E. OAK
PARK FROM THE REST OF THE VILLAGE. IT WILL BE A
PRIME TARGET FOR GRAFFITI. ALSO, WHY WOULD A TENANT,
WHO IS NOT A STAKEHOLDER, BE ALLOWED A VOTE THAT
IMPACTS THE PROPERTY VALUES OF THE HOME OWNERS? IF NOISE IS
AN ISSUE FOR THEM, THEY COULD EASILY RENT ELSEWHERE.
NO WALL!!

Please respond by November 23, 2015.

Money not well spent / Grafetti / Illinois does not employ
African-American ^{models} for their transportation
improvements. Drive to Indiana and you
witness the difference. It's always inclusive
with a-a males employed. Thanks
P.S Glad the CTA ramps will be removed a
flat surface access is so better.

Please put up the wall, it is already incredibly
noisy, and the addition of 2 more lanes will only
make it noisier. ~~not~~ add to the noise. People outside
the noise boundary cannot appreciate the severity of
the noise nor its functional obsolescence.

Comments:
Yes we need the wall.
Can we assume that the homes on the North
side of the I-290 will not be torn down for the
expressway?
Is parking on Flornoy eliminated?

Please respond by November 23, 2015.

Comments:

I'm happy to read that something is going to be done to improve pedestrian safety on the crossroad bridges and for accessing the CTA Blue lines. This is a very dangerous bridge to cross (at Austin). I've almost been hit a number of times. The cars that are turning right onto I-290 are especially rude. They have the green light at the same time the pedestrians have the sign to cross. They don't yield to us.

About 5 or 6 yrs ago the City did what they claim
was an improvement?? They destroyed ALL the
plants trees & bushes we as a community planted
over many years - creating a wall of vegetation
thereby reducing sound and eliminating
pollution so much for city improvement - the noise
is louder - the air very dirty
Please respond by November 23, 2015.

Comments:

The views from Railroad Ave. of the downtown skyline and trees in Columbus Park are some of the best things about our humble neighborhood. We would prefer more traffic noise to losing that. We also believe there are more natural options available for the CSX-owned strip of land N. of Railroad that should be considered. A small berm with trees and native plants would both help with noise and add something positive to the neighborhood. Please consider such options. Thank you.

Comments:

THE NOISE IS NOT A PROBLEM FOR MY
COMFORT. BUILDING A NOISE WALL WOULD
PROVIDE AN UNSAFE ENVIRONMENT FOR A COMMUNITY
OF SINGLE FAMILY HOMEOWNERS WITH ELDERLY
RESIDENTS. THE NOISE WALL WOULD PROVIDE A VIRTUAL
CRIME PLAYGROUND FOR DRUG ACTIVITY; EASY ACCESS OFF AND
ON THE 290 BETWEEN LARAMIE AND CENTRAL. THE AREA
WOULD BE TOTALLY SECLUDED FROM VIEW,
ALL THAT IS NEEDED FOR ILLEGAL ACTIVITY.

Please respond by November 23, 2015.

The design is awesome. My concern would be the increase of drug sales noted in the community. Documentation ^{has been} noted in the neighborhood has been addressed in news articles (magazine) as well as at least two or three drug related deaths from drugs purchased by suburban people young middle age caucasians purchasing drugs. Within the past year

Comments:

This wall would prove too confining & depriving of view & greenery. Who is it to protect? I've lived here 54 yrs & would feel imprisoned & cut off from society. It is ugly & would actually cause a further decrease in property value. Suggestion: Plant more trees & greenery (a natural buff) to aid in decreasing noise level.

Awe-ful, horrendous, terrible idea. I equate this with stealing the sunlight & view. I have lived in this community 45 years & on this block 60 years. Although we often feel forgotten by police & city services, rampant crime on the streets. The view from the expressway whether sitting, standing or driving is a ray of sunshine. This is imprisonment of community & streets.

Comments: Due to the violence, drugs & lack of police support our neighborhood is not the community I moved in forty years. One of the few rays of sunshine is the view from my porch or street of the expressway. I'm not an engineer but no amount of wall is going to muffle the sound of the train & the cars on the expressway. I hate

I hate this idea! I have rode along roadways
& visited communities with sound walls. It
stifes the view & blocks the sunlight. It also feels
like a tunnel. In this day of advance technology
I know there should be other ways to dampen the
noise of traffic. Ways that are less constricting & imprisoning.
Bad idea in the name of progress

Tenant on this property NO

Comments: I personally do not see it as a benefit to the community and there are several reasons why I am against this wall being constructed:

1. It looks like a prison wall and that is the last thing I want my property to be near. Even if plants were to grow on the wall, it still gives the appearance of blocking the view of the neighborhood as it grows and changes. The wall would give a negative first impression of the neighborhood. It would look like the city is trying to hide certain neighborhoods from the passing public. It would also bring down the property value of any land near it.
2. The noise is so minor that you can get the same noise just from street traffic on Jackson Blvd. which is one block north of my building and two blocks north of the expressway. You don't build noise walls to block noise from major streets so why cut off the expressway.
3. I use the view of the expressway to determine the density of traffic and decide if extra time should be used to get to my destination. The expressway also serves as a source of visual interest.
4. The only buildings west of the railroad tracks are industrial buildings and they make enough noise on their own. When taking into consideration the small businesses, it will be hard to see them from the expressway.
5. If you are trying to stop some of the noise where new residential buildings are being constructed you will find that most, if not all, of these new buildings are more than 17 feet tall and very little noise would be stopped by putting up a wall because there also happens to be an "on ramp at Western. Also these new buildings are probably already insulated against noise.
6. If you are not going to increase the number of lanes from 4 to 5 you may be taking away from the greenspace that borders the expressway which holds a beautiful landscape for those of us who like to look at the traffic and across the expressway and at the park on the other side of the expressway as well.
7. My last but most important point is that it appears that no one who is working on this project lives in the neighborhood for which you want to build this monstrous wall. If you had to look at a blank wall day in and day out you would know what a person in jail would feel like. You would feel like you are being cut off from the flow of the city. I've lived here for all but 5 of my 61 years of my life and I don't like your proposal as far as the wall is concerned.

Comments:

I don't hear enough noise to make the spend of for something I like this worth the effort and cost. I live in the city and expect a certain noise level. My concerns over safety issues building something like this could potentially create over side any benefit I can see. Not mention potentially creating a large canvas for graffiti

I only support it if there is no alternative to building another lane. I don't support the expansion. And if the wall is built, green space along side should be part of it to compensate for the extra fumes we'll be breathing.

① Don't experience much noise, however can see how some would

② I question the claim that such a wall (in the example)
would significantly reduce noise.

③ Is the incurrence of construction worth it?

Comments:

I feel safer walking in this area with it opened up and able to see from a distance. Also, not being able to see the expressway will be an inconvenience because knowing whether or not there is traffic will determine what route I take for the day.

Please respond by November 23, 2015.

If the department has not considered already perhaps a
"planted noise barrier" would be a good choice. This will
help environmentally as well as maintain the Asthetic
look of the wall and give a pleasant feeling to the
surrounding neighborhood and area.
All the best with the project.

THE EXHIBIT PROVIDED SHOWS AN EXISTING NOISE BARRIER IN
FRONT OF [REDACTED] THIS DOES NOT EXIST.
I DO NOT BELIEVE A 20' NOISE WALL IS ANY BENEFIT TO A BUILDING
WHICH THE FIRST FLOOR OF CONDOS ARE 20' ABOVE GRADE. ALSO, I THINK A
NOISE WALL WILL CREATE AN UNSIGHTLY BARRIER IN THE NEIGHBORHOOD,
AND BLOCK VIEWS FROM PEDIESTRIANS

Please respond by November 23, 2015.

Comments:

As a resident living in the west loop for the past
19 yrs, I feel the wall barrier is a eye sore,
and I do not have any complaints about the noise
from the expressway. In my opinion, since the state
is struggling with funding, these funds could be
reallocated to another programs (Day care, After school
programs or senior progra

Comments:

I enjoy looking at the expressway. I do not want to look at a wall and feel like I'm boxed in. I like to chase and I'm facing the expressway. I don't want to have a wall right in front of my face. Please don't put this wall in my face. The noise does not bother me, after all these years. I've never been in jail and don't want to feel like I'm living there!

Please respond by February 10, 2016. If you have already responded, please do not respond again.

Comments:

Truely believe this program is not good for the
neighborhood. Too many closures in the area
already. Plus expressway is already not being cleaned
up all the time and left with dead trees in the area
plus if any accidents occur people can receive help
as quickly as possible.

Eisenhower Expressway (I-290)
West of Mannheim Road to Racine Avenue
Cook County

Date: 01/23/16

Do you support the construction of the noise wall?

Yes *maybe see comments*
 No

Name:

Address:

Signature:

Owner of this property: Tenant on this property:

Comments:

If adding the wall will close any exits affecting the Maywood community (ex. 17th Ave West and 9th Ave East) I am opposed to the noise wall. If constructing the wall will not close any exits affecting the Maywood community (ie. 17th Ave West and 9th Ave East) I am for the noise wall.

Please respond by February 10, 2016. If you have already responded, please do not respond again.

Thank you for your participation!

Comments:

I currently hear no noise and right at
I-290. Perfer another type of noise barrier be
used (e.g. vegetation). Plus, houses are on an incline
which is already of barrier.

Comments:

Our home faces the expressway. Building a wall completely eliminates any visibility when standing on our porch or looking out the front window. I believe this will have a negative impact on our property values, and could serve as an obstacle for selling our homes. While living near an expressway is definitely not a selling point, looking directly at a brick wall will not attract buyers. Additionally, many people find looking out at the expressway very meditative and calming, believe it or not. Lastly, we believe it is

[REDACTED] is the only block that will face the noise wall. The wall will give kids an opportunity to spray paint which will give residents a wall of graffiti to view. Which in turn would bring the property value down. You will not be able to enjoy the beautiful OAK PARK scenery by putting this wall up. PLEASE DO NOT INSTALL NOISE WALL!

I do not like the ^{proposal} of the noise wall, First
because it does not cause any noise to us and
second a wall would make our neighborhood ~~be~~
secluded from the rest of the neighborhoods and
I like to walk and see the city from a far,
a wall would impede the view.

Comments:

I don't want a
noise wall, blocking the
view of the expressway that
I have seen since my
childhood. For Nostalgia
purposes. I don't want blocked views
like in New York City.

Please respond by February 10, 2016. If you have already responded, please do not respond again.

Note: please don't
Build the here! Work
is best used other
wise, like building
houses and cleaning
empty vacant lots

Addendum:
Primitives could
ride. Behind these walls

Comments:

I support the noise wall due to the noise it makes and the shaking of the property. Some times our lock's are off centered. Traffic that hit the ramp, "TRUCKS" at Kostner makes a loud boom Day + Night. Also people's use that side of the street as a garbage dump, sex at night + DRUG DROP OFF Day + Night. NO Camera's

The Road noise sometime wake us up in evening time especially the semitrucks. The Road (Expressway) produce black substance that accumulate at the Roof, exterior walls and windows. I hope the wall Reduces the noise and black substance.

Comments:

The noise level is only obvious when in my back yard. I have no problem with the noise level. I rather enjoy it because I happen to love the noises of the city. Building the wall may make the noise level decrease, but it makes the area more unattractive.

Please respond by February 10, 2016. If you have already responded, please do not respond again.

Comments:

The sounds from the expressway does not
bother me, in fact it acts as an alarm
clock sometimes waking up^{to} the sounds
of traffic, very faint. So where's the
benefit of this wall or does it
serve as protection from the neighborhood.

at present the owner is unknown. I speak
for all the tenants in the building. With
the addition of the wall we will have to
have vegetation added to aid in sound reduction
I think trees perhaps. If not it would be
something to consider.

NO because that not important I don't
even hear the noise from the expressway
We need that money for important thing
like School Healthcare facilities Housing
for the people police on the job stuff like
that concern not to be scare to come out my Da
because they are shooting

Please respond by February 10, 2016. If you have already responded, please do not respond again.

February 24, 2016

Not in favor of "The Wall". I feel it would cut off the view, a asset for those who participate in illegal activities, become a hangout for taggers and feel claustrophobic.

I am saying no to a noise wall
because it's not noisy over here
we are not being bothered by any
noise - it's quiet over here.

I suggest you use the money for something to
benefit our children and teachers.

Comments:

The wall would suppress noise,
but what about the air pollution
from vehicles on the expresway? (I-290)

Is there something you could do about
the air quality as well? Its always worse in the
summertime

Please respond by February 10, 2016. If you have already responded, please do not respond again.
Thank you for your participation!

I absolutely donot support construction of the noise wall its a form of imprisonment which is definitely not a beautiful sight not is it peaceful to the mind plants and shrubs can be a noise barrier and much more pleasant to look at with the beauty of the greenery scene let the beauty of the land shine through not a prison wall

Comments:

What I'm most concern about is flooding. The last time work was done on the 290 whenever there was a heavy rain the sewers on the block would backup & the streets would flood, which would cause worry about basement flooding.

I want the wall because it will
help block noise especially in the wee
hours of the morning - the noise from the
cars, trucks, etc - is getting worse as
traffic increases.

Comments:

I AM AGAINST THE WALL BECAUSE THE NOISE
LEVEL IS NOT OF THE LEVEL TO BE DISTURBING.
MORE DISTURBING IS THE OVER GROWTH OF THE
AREA OF TREES, BUSHES AND WEEDS. THE ILLINOIS
DEPARTMENT MAKES NO EFFORT TO MAINTAIN THE
LANDSCAPE IN MY AREA AND THE SAME LEVEL OF NOW
CARE WOULD OCCUR WITH THE WALL! THE ENCLOSED PICTURE

Please respond by September 9, 2016. Thank you for your participation!

SHOWS THAT! KEEPING
IT LANDSCAPED WOULD
BE A CHEAPER AND
BETTER WAY TO
IMPROVE THE AREA!

Comments:

- ① If this Barrier were to be installed, how would this effect the proper value?, and would this cost the property owners in the future; the benefits from this wall? ② why is it just benefitting the property owner on the southside of Eisenhower Expressway from 10th Ave. to 16th Ave, BATAVIA to Lexington St. and also a few homes just south of Lexington St.; Why is it NOT benefitting the property on the northside of the Expressway as well? ③ are these property being targeted for: STATE, COUNTY financial gains?
Please respond by October 14, 2016. Thank you for your participation! "CONCERN CITIZEN"

Comments:

Because the neighborhood is inundated with rats, raccoons, rabbits and other burrowing wild animals that build their homes in forest-like surroundings it would make the area cleaner and brighter with cleanliness and less garbage being strewn about

Comments:

I think that the noise reduction wall is a good
idea. I don't think that any ramps to the expressway
should be closed or blocked for 3 miles (2.5 to 1st)
