

I-290 | Eisenhower Expressway

From west of Mannheim Road to Racine Avenue

Index

9.0 Index

A

Agency Coordination and Public Involvement	4-1
Agency Coordination	4-15
Community Coordination	4-13
Context Sensitive Solutions	4-1
Corridor Advisory Group/Task Force	4-3
Environmental Justice	4-11
National Environmental Policy Act	4-1
Project Study Group	4-2
Public Meetings.....	4-10
Stakeholder Involvement Plan.....	4-2
Stakeholder Outreach.....	4-10
Air Quality	3-122
Ambient Air Quality Data	3-125
Attainment Status	3-128
Emission Burden Analysis.....	3-132
GHG Analysis	3-132
Microscale CO Analysis.....	3-141
MSAT Analysis	3-136
Alternatives	2-1
Alternatives Carried Forward for Further Analysis	2-59
Alternatives Development and Evaluation Process	2-1
Build Alternatives.....	2-1, 2-60
Bus Rapid Transit	2-6
Combination Mode Alternatives	2-16, 2-18, 2-19, 2-20, 2-21, 2-29

Express Bus.....	2-6
General Purpose Lanes	2-5
HOT Lanes.....	2-7
HOV Lanes	2-7
Initial Alternatives Identification	2-2
No Build Alternative	2-1
Round 1 Single Mode Alternatives Evaluation	2-8
Round 2 Combination Mode Alternatives Evaluation.....	2-19
Round 3 DEIS Alternatives.....	2-32
Single Mode Alternatives Identification.....	2-3
Toll Lanes.....	2-7

C

Comparison of Alternatives.....	5-1
Accommodation for High Capacity Transit.....	5-5
Alternatives Carried Forward.....	5-1
Build Alternatives.....	5-1, 5-3
Comparison Matrix of Alternatives	5-6
Construction Staging and Construction Cost	5-25
No Build Alternative	5-1
Performance Comparison.....	5-12
Preferred Alternative.....	5-26
Quantitative Comparison of Alternatives	5-31
Social/Economic and Environmental Impacts Comparison	5-14
Tolling	5-23
Construction Impacts.....	3-288
Advance Work	3-288

Air Quality	3-294
Construction Noise and Vibration	3-295
Energy	3-297
I-290 Construction Staging	3-290
Parks and Recreational Facilities	3-297
Solid Waste	3-296
Transportation.....	3-288
Utility Services	3-297
Water Resources.....	3-293
Cultural Resources	3-107
Affected Environment.....	3-110
Area of Potential Effects.....	3-110
Columbus Park Consultation.....	3-108
Consulting Parties Meeting.....	3-110
Consultation	3-108
Environmental Consequences.....	3-120
SHPO Meeting and Field Review	3-109
Section 4(f)	3-108
Section 106	3-108
State Historic Preservation Officer	3-107

E

Energy	3-160
Environmental Resources, Impacts, and Mitigation	3-1
Project Corridor.....	3-1
Study Area	3-1

F

Floodplains	3-198
Floodplain Encroachments.....	3-200
Floodplains within the Project Corridor.....	3-199
Floodway Encroachments	3-204
Natural and Beneficial Floodplain Values	3-200
Reservoirs.....	3-199
Spillways and Pump Stations	3-200

G

Groundwater.....	3-195
------------------	-------

I

Indirect and Cumulative Impacts	3-298
Cumulative Impacts	3-308
Indirect Impacts	3-298
Irreversible and Irretrievable Commitment of Resources	3-312

N

Natural Resources	3-162
Habitat Loss and Fragmentation.....	3-167
Threatened and Endangered Species.....	3-165
Upland Plant Communities.....	3-171
Vegetation and Cover Types.....	3-162
Wildlife.....	3-164, 3-168

P

Permits and Approvals.....	3-314
Purpose and Need for Action.....	1-1
Access to Employment.....	1-7
Access to Transit	1-14
Crash Rate.....	1-10
Eisenhower Expressway	1-1
Jane Byrne Interchange	1-2
Local Travel	1-4
Level of Service	1-6
No Build 2040	1-4
Project Background.....	1-1
Regional Travel	1-4
Safety	1-9
Transportation Facility Deficiencies.....	1-15
Study Area	1-3

S

Short-Term Use and Long-Term Productivity	3-311
Social/Economic Characteristics	3-4
Community Cohesion and Community Changes.....	3-37
Corridor Economic Characteristics	3-10
Environmental Justice	3-81
Local Planning.....	3-33
Population Characteristics.....	3-4
Project Corridor Neighborhoods.....	3-19
Public Facilities and Services	3-28

Public Outreach to Environmental Justice Communities	3-89
Relocations and Right-of-Way	3-40
Transportation Network.....	3-46
Special Lands.....	3-218
Columbus Park.....	3-234
Existing Parks and Recreational Areas	3-218
LWCF, OSLAD, and UPARR-Funded Sites	3-225
Planned or Proposed Park and Recreational Facilities.....	3-226
Section 4(f) Regulations	3-228
Village of Forest Park Parklands	3-228
Special Waste.....	3-208
Environmental Regulatory Agency Databases.....	3-210
Recognized Environmental Conditions.....	3-208
Summary of Environmental Commitments and Mitigation	3-315

T

Traffic Noise	3-143
Existing I-290 Noise Environment.....	3-146
Traffic Noise Analysis Process.....	3-143
Traffic Noise Impacts	3-156
Traffic Noise Monitoring	3-146

V

Visual Resources.....	3-239
Columbus Park Trail Connection.....	3-286
Context Sensitive Design	3-280
Existing Conditions Visual Analysis as viewed from the Mainline	3-239

Landscape Improvements	3-281
No Build Alternative	3-264
Noise Barriers	3-285
Viewsheds of the Project Corridor from Adjacent Land Uses	3-249
Visual Consequences of Build Alternatives as viewed from within the Project Corridor.....	3-265
Visual Consequences of Build Alternatives as viewed from outside the Project Corridor.....	3-275

W

Water Resources and Aquatic Habitats.....	3-173
Construction Impacts	3-192
Deicing.....	3-193
Impacts to Surface Waters	3-185, 3-187, 3-189
Operational Impact Practices	3-193
Physical and Biological Description of Surface Water Bodies.....	3-176
Watershed Planning Groups.....	3-175
Water Resources.....	3-176
Water Quality	3-181
Wetlands	3-207
